

## **Construction Documentation**

The superintendent or designee shall oversee the development of all construction documents to be used in school district construction.

At a minimum, the construction documents shall include contractual agreements between the district and design professionals, contractors and/or architects, as appropriate.

In embarking on a construction project the district shall utilize the construction documents as approved by the Board pursuant to this subsection without material changes unless an unusual situation demands a change and there is Board approval of the change.

Adopted by the superintendent: December 14, 2016

Revised and recoded by the superintendent: July 17, 2019
