

Screening/Testing of Students (And Treatment of Mental Disorders)

Any survey, assessment, analysis or evaluation administered or distributed by a school to students shall be subject to applicable state and federal laws protecting the confidentiality of student records.

Survey, assessment, analysis or evaluation for which consent is required

Except as otherwise permitted by law, students shall not be required to submit to a survey, assessment, analysis, or evaluation that is intended to reveal information, whether the information is personally identifiable or not, without prior written consent of the parent/guardian or eligible student (meaning a student 18 years of age or older or an emancipated minor), if that survey, assessment, analysis, or evaluation reveals information in the following areas ("protected information"):

1. political affiliations or beliefs of the student or the student's parent/guardian
2. mental or psychological conditions of the student or the student's family
3. sexual behavior or attitudes
4. illegal, anti-social, self-incriminating or demeaning behavior
5. critical appraisals of other individuals with whom the student has a close family relationship
6. legally recognized privileged or analogous relationships, such as those with lawyers, physicians and ministers
7. religious practices, affiliations or beliefs of the student or the student's parent/guardian
8. income (other than that required by law to determine eligibility for participation in a program or for receiving financial assistance under such program)
9. social security number

School personnel responsible for administering any such survey, assessment, analysis or evaluation shall give written notice at least two weeks in advance to the student's parent/guardian or the eligible student and shall make a copy of the document available for viewing at convenient times and locations. The notice shall offer to provide the following written information upon request:

1. records or information that may be examined and required in the survey, assessment, analysis or evaluation

2. the means by which the records or information shall be examined, reviewed, or disseminated
3. the means by which the information is to be obtained
4. the purposes for which the records or information are needed
5. the entities or persons, regardless of affiliation, who will have access to the information; and
6. a method by which a parent/guardian can grant or deny permission to access or examine the records or information

These notice provisions also apply to any survey, analysis or evaluation funded by the U.S. Department of Education.

Exceptions to policy

Nothing in this section of the policy shall:

1. prevent a student who is working under the supervision of a journalism teacher or sponsor from preparing or participating in a survey, assessment, analysis or evaluation without obtaining consent as long as such participation is not otherwise prohibited by law
2. be construed to prevent a district employee from reporting known or suspected child abuse or neglect as required by state law
3. be construed to limit the ability of a health professional that is acting as an agent of the school district to evaluate an individual child
4. be construed to require parental notice or consent for a survey, assessment, analysis or evaluation related to educational products or services for or to students or educational institutions. These products and services include, but are not limited to, the following:
 - college or other postsecondary education recruitment or military recruitment activities
 - book clubs, magazines and programs providing access to low-cost literary products
 - curriculum and instructional materials used by district schools
 - tests and assessments used by district schools to provide cognitive, evaluative, diagnostic, clinical, aptitude, or achievement information about students
 - the sale by students of products or services to raise funds for school-related or education-related activities
 - student recognition programs
5. be construed to require parental notice or consent for assessments used to collect evidence of what a student knows and is able to do and to measure a student's academic progress toward attaining the district's academic standards

6. limit the ability of the district to administer a suicide assessment or threat assessment

Surveys, assessment, analysis or evaluation for marketing purposes

Parents/guardians and eligible students shall receive notice and have the opportunity to opt a student out of activities involving the collection, disclosure or use of personal information collected from the student for the purpose of marketing or selling that information or otherwise providing the information to others for that purpose.

Annual notice

At the beginning of each academic year, the district shall inform parents/guardians and eligible students that the parent/guardian or eligible student has the right to consent before students are required to submit to a survey that concerns one or more of the protected areas and to opt out of the following:

1. activities involving the collection, disclosure or use of personal information collected from students for the purpose of marketing or for selling that information;
2. the administration of any protected information survey; or
3. any non-emergency, invasive physical examination or screening (other than a hearing, vision or scoliosis screening) that is:
 - required as a condition of attendance;
 - administered by the school and scheduled by the school in advance; and
 - not necessary to protect the immediate health and safety of the student or of other students.

Psychiatric/psychological/behavior testing methods or procedures

School personnel are prohibited under state law from recommending or requiring the use of psychotropic drugs for students. They are also prohibited from testing or requiring testing for a student's behavior without giving notice to the parent/guardian describing the recommended testing and how any test results will be used. Prior to conducting any such testing, school personnel shall obtain written permission from the parent/guardian or eligible student in accordance with applicable law.

School personnel are encouraged to discuss concerns about a student's behavior with the parent/guardian, and such discussions may include a suggestion that the parent/guardian speak with an appropriate health care professional regarding any behavior concerns that school personnel may have. Only those persons appropriately certified or licensed may expose students to any psychiatric or psychological method or procedure for the purpose of diagnosis, assessment or treatment of any emotional, behavioral or mental disorder or disability. Such methods or procedures may only be performed after acquiring written permission from a student's parent or guardian, or from the student in those circumstances in

which federal or state law allows the student to obtain such services in confidence or without prior notice to the parent/guardian.

Licensed school personnel are encouraged to be knowledgeable about psychiatric or psychological methods and procedures but shall not be involved in any diagnosis, assessment or treatment of any type of mental disorder or disability unless appropriately certified. In accordance with state law, school personnel including certified school psychologists are not authorized to practice psychotherapy or utilize any psychiatric or psychological procedure outside of or beyond their area of training, experience or competence.

Ordinary classroom instruction, activities and techniques involving the approved curriculum that teach about psychological or psychiatric methods or procedures shall be permissible and considered outside the scope of this policy. It is understood that there is a significant difference between practicing therapy and providing activities that may be therapeutic in nature. Any teacher who questions whether a planned activity is one involving psychiatric or psychological methods or procedures for which the teacher may not be properly certified or licensed shall consult with the school principal.

Special education evaluation

The giving of parental permission for evaluation or re-evaluation of a student with disabilities and any required consent to the provision of special education services to a student with disabilities is governed by state and federal law and is outside the scope of this policy.

Adopted: March 9, 1993

Notification of Rights Under the Protection of Pupil Rights Amendment (PPRA)

PPRA affords parents/guardians certain rights regarding the conduct of surveys, collection and use of information for marketing purposes, and certain physical exams. These include the right to:

1. Consent before students are required to submit to a survey that concerns one or more of the following protected areas (“protected information survey”), if the survey is funded in whole or in part by a program of the U.S. Department of Education (ED):
 - a. Political affiliations or beliefs of the student or student’s parent/guardian.
 - b. Mental or psychological problems of the student or student’s family.
 - c. Sex behavior or attitudes.
 - d. Illegal, anti-social, self-incriminating, or demeaning behavior.
 - e. Critical appraisals of others with whom respondents have close family relationships.
 - f. Legally recognized privileged relationships, such as with lawyers, doctors, or ministers.
 - g. Religious practices, affiliations, or beliefs of the student or parents/guardians.
 - h. Income, other than as required by law to determine program eligibility.
2. Receive notice and an opportunity to opt a student out of:
 - a. Any other protected information survey, regardless of funding.
 - b. Any non-emergency, invasive physical exam or screening required as a condition of attendance, administered by the school or its agent, and not necessary to protect the immediate health and safety of a student.
 - c. Activities involving collection, disclosure, or use of personal information obtained from students for marketing or to sell or otherwise distribute the information to others.
3. Inspect, upon request and before administration or use:
 - a. Protected information surveys of students.
 - b. Instruments used to collect personal information from students for any of the above marketing, sales, or other distribution purposes.

c. Instructional material used as part of the educational curriculum.

These rights transfer from the parents/guardians to a student who is 18 years old or an emancipated minor ("eligible student") under state law.

The district will develop and adopt policies, in consultation with parents/guardians, regarding these rights, as well as arrangements to protect student privacy in the administration of protected information surveys and the collection, disclosure, or use of personal information for marketing, sales, or other distribution purposes.

The district will directly notify parents/guardians of these policies at least annually at the start of each school year and after any substantive changes. The district will also directly notify, such as through U.S. Mail or electronic mail, parents/guardians of students who are scheduled to participate in the specific activities or surveys noted above and will provide an opportunity for the parent/guardian to opt his or her child out of participation in the specific activity or survey. The district will make this notification to parents/guardians at the beginning of the school year if the district has identified the specific or approximate dates of the activities or surveys at that time.

For surveys and activities scheduled after the school year starts, parents/guardians will be provided reasonable notification of the planned activities and surveys listed below and be provided an opportunity to opt their child out of such activities and surveys. Parents/guardians will also be provided an opportunity to review any pertinent surveys.

Following is a list of the specific activities and surveys covered under this requirement:

1. Collection, disclosure, or use of personal information for marketing, sales or other distribution.
2. Administration of any protected information survey not funded in whole or in part by ED.
3. Any non-emergency, invasive physical examination or screening as described above.

Parents/guardians and eligible students who believe their rights have been violated may file a complaint with:
